

Extract By Encounter Type

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Admission Head Circumference (NICU)	N0210	Head circumference in cm of newborn upon admission to NICU		
Admission Temperature	N0232	Temperature of newborn upon admission to NICU		
Admission Weight (NICU)	N0211	Weight of newborn in grams upon admission to NICU.		
Age at Neonatal Death	N0141	Calculated Age at Neonatal Death		
APGAR1	N0008	APGAR Score at 1 minute	10	
			9	
			8	
			7	
			6	
			5	
			4	
			3	
			2	
			1	
			0	
			Unknown	
APGAR10	N0010	APGAR Score at 10 minutes	10	
			9	
			8	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
APGAR10	N0010	APGAR Score at 10 minutes	7	
			6	
			5	
			4	
			3	
			2	
			1	
			0	
			Unknown	
APGAR5	N0009	Indicate APGAR score at 5 minutes of age	10	
			9	
			8	
			7	
			6	
			5	
			4	
			3	
			2	
			1	
			0	
			Unknown	
Arterial cord blood base excess / deficit	FAN0102	Indicate results of venous umbilical cord blood sampling indicating base excess or deficit as reported by birth hospital		

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Arterial Cord Blood pH	FAN0103	Indicate results of arterial umbilical cord blood pH as reported by birth hospital		
Arterial cord blood test status	Y0020	Indicate status of arterial cord blood test	Not Done	
			Done	
			Unsatisfactory Specimen	
Autopsy Consent	N0059	Indicate whether parent/guardian consent was obtained for autopsy		
Bilirubin Measured within 72 hours of Birth	N0204	Indicate if Bilirubin was measured within 72 hours of birth while in your unit during this encounter. If TCB and TSB were used, select both. If baby is discharged and returns for testing within 72 hours, select Not Done.	Transcutaneous Bilirubin (TCB)	
			Total Serum Bilirubin (TSB)	
			Newborn Transferred Out	
			Not Done	
			Declined	
			Unknown	
Birth Hospital	Y02091	The name of the hospital where the birth occurred if Birth Location =hospital. Includes all Ontario hospitals with and without birthing units and some out of province and out of country hospitals.		
Birth Location	N0005	The location where the birth occurred (hospital, home, other)	Hospital	
			Home	
			Nursing Station	Primary health care facilities on First Nation reserves.
			Other Ontario location	
			Outside of Ontario	
Birth Weight	N0012	Indicate newborn birth weight (grams)		
Birth Weight Is Unknown	N0012NO			

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Days of Age at Discharge	N0050-1	Age of newborn in days upon discharge from NICU		
Days of Age on Admission (NICU)	N0211-1	Age of the newborn in days upon admission to NICU		
Discharge Interventions in Place (on day of discharge)	N0231	Discharge Interventions in Place (on day of discharge)	None	
			Oxygen	
			Ostomy	
			Tracheostomy	
			Gastrostomy	
			Ventilation	
			CPAP	
			Phototherapy	
			Unknown	
Discharge Weight	N0052	Indicate newborn weight at discharge from hospital (grams). Enter 0 if weight is unknown. This field is mandatory on the Postpartum Child encounter if baby is discharged Home or to CAS (Apprehension).		
Discharged to Health Care Provider	N0133	Indicate type of long term primary Health Care Provider neonate discharged to. Does not include Midwife as midwife is short term care provider (up to six weeks postpartum)	Family Physician	
			Paediatrician	
			Paediatric Specialty	
			Nurse Practitioner	
			Does not have a primary health care provider	
			Unknown	
Feeding Methods (on day of discharge)	N0015	Indicate infant feeding method(s) on the day of discharge from your unit for this NICU/SCN encounter.	None	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Feeding Methods (on day of discharge)	N0015	Indicate infant feeding method(s) on the day of discharge from your unit for this NICU/SCN encounter.	Breast	
			Bottle	
			Supplementation Device on Breast	
			Supplementation Device not on Breast ie, finger feed, cup, other	
			NPO	
			Gavage tube	
			Supplementary feeding systems	
			Gastrostomy tube	
			Mucus Fistula Re-feed	
			Other	Select 'None' if no feeding method was used.
Unknown				
Feeding Methods in Hospital	N0218	Indicate only the method(s) of feeding provided in your unit during this NICU/SCN encounter.	None	
			Breast	
			Bottle	
			Supplementation Device on Breast	
			Supplementation Device not on Breast ie, finger feed, cup, other	
			NPO	
			Gavage tube	
			Supplementary feeding systems	
			Gastrostomy tube	
			Mucus Fistula Re-feed	
Other	Select 'None' if no feeding method was used.			
Unknown				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Feeding Type (on day of discharge)	N0229	Indicate infant feeding type(s) on the day of discharge from your unit for this NICU/SCN encounter.	None	
			Breast Milk	
			Donor Milk	
			Formula	
			Human Milk Fortifier	
			NPO	
			Other Additives	
			Study Milk	
			TPN	
			Unknown	
FiO2(%)	D0097	Neonates FIO2 requirement within 12 hours after initiation of NICU/SCN Care - to calculate SNAPII Score		
Generic Comment	D0021	Hospital specific comment		
Gestational Age at Birth (weeks+days; calculated using EDB and DOB)	N0014	The infant's gestational age at the time of birth derived using EDB and DOB in weeks and days. For NSO, gestational age is what is indicated on the newborn screening requisition		
Gestational age at discharge	N0050	Calculated gestational age of premature infant at discharge from hospital		
Head Circumference on Discharge from NICU	D0151	Indicate neonatal head circumference (cm) upon discharge from NICU		
Highest Mode of Respiratory Support	N0216	Highest mode of respiratory support provided in your NICU/SCN unit for this encounter. Pick list ordered from highest to lowest. •Invasive High Frequency Ventilation [1-highest] •Intermittent Positive Pressure Ventilation [2] •Non-Invasive Ventilation [3] •Oxygen [4] •Other [5-lowest]	Invasive High Frequency Ventilation	
			Intermittent Positive Pressure Ventilation	
			Non-Invasive Ventilation	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Highest Mode of Respiratory Support	N0216	Highest mode of respiratory support provided in your NICU/SCN unit for this encounter. Pick list ordered from highest to lowest. •Invasive High Frequency Ventilation [1-highest] •Intermittent Positive Pressure Ventilation [2] •Non-Invasive Ventilation [3] •Oxygen [4] •Other [5-lowest]	Oxygen	
			Other	
			Unknown	
Highest Serum Bilirubin >340 µmol/L	N0207	Indicates whether highest serum bilirubin > 340 µmol/L		
Highest Serum Bilirubin >425 µmol/L	N0208	Indicates whether highest serum bilirubin > 425 µmol/L		
Hyperbilirubinemia Requiring Treatment	N0205	Indicates whether hyperbilirubinemia required treatment		
Hyperbilirubinemia treatment	N0206	Hyperbilirubinemia treatment	Phototherapy	
			IVIG administration	
			Exchange transfusion	
Invasive Ventilation Days	N0047	Indicate total number of days that invasive ventilation was used in your NICU or SCN for this encounter only, with or without oxygen. When the infant receives full day(s) of ventilation support enter the whole number(s). If ventilation support is less than 24 hours, the percentage of the day needs to be calculated by dividing the number of hours by 24. Eight hours = 8/24 = .33. This value can not be longer than the LOS.		
Maximum of Oxygen provided during neonatal resuscitation	N0214	Maximum of Oxygen in % provided during neonatal resuscitation		
Meets RSV prophylaxis criteria	D0105	Indicate whether neonate meets RSV prophylaxis criteria, either in season or out of season		
Multiple Seizures	D0099	Neonates seizure status within 12 hours after initiation of NICU/SCN Care - to calculate SNAPII Score		
Neonatal Birth Complications	N0021	Indicate all newborn complications and/or conditions	None	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Birth Complications	N0021	Indicate all newborn complications and/or conditions	Birth injury - intracranial hemorrhage	
			Birth injury - subarachnoid hemorrhage	
			Birth injury - subdural hemorrhage	
			Birth injury - unspecified	
			Birth injury - other	
			Unknown	
Neonatal Death	N0060	Indicate whether neonatal death occurred. Mandatory on BC encounter if Birth Outcome=Live Birth. (Not visible on BC if Birth Outcome=Stillbirth). Mandatory on PPC and NICU encounters.	No	
			Yes	
			Yes-With Termination of Pregnancy	
Neonatal Death Date	N0138	Indicate day/month/year of neonatal death		
Neonatal Death Time	N0139	Indicate time (24 hour clock) of neonatal death		
Neonatal Discharged or Transfer to (NICU/SCN)	N0066	To track neonatal transfers and discharges	Home	
			Transfer to Mother / Baby unit, same hospital	
			Transfer to Paediatric unit, same hospital	
			Child and Family Services Apprehension	
			Transfer to clinic, same hospital	
			Transfer to Emergency department, same hospital	
			Transfer to Labour & Birth unit, same hospital	
			Transfer to Level II, same hospital	
Transfer to Level III, same hospital				
			Transfer to operating room, same hospital	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Discharged or Transfer to (NICU/SCN)	N0066	To track neonatal transfers and discharges	Transfer to Palliative Care	
			Transfer to PICU/PCCU, same hospital	
			Transfer to same hospital, other	
Neonatal Growth and Development Follow-up	D0144	Identify if neonate meets criteria for neonatal follow-up with subsequent referral completed	No	
			Unknown	
			Yes	
Neonatal Health Conditions	D0152	Indicate type(s) of neonatal health problems diagnosed during NICU/SCN stay	None	
			Hyperbilirubinemia (NICU)	
			Hypoglycemia (Gluc)	
			Neonatal abstinence syndrome (NAS)	
			Patent Ductus Arteriosus \ PDA present not treated	
			Patent Ductus Arteriosus \ PDA treated pharmacologically	
			Patent Ductus Arteriosus \ PDA treated with ligation	
			Pneumothorax \ Pneumothorax Present not treated	
			Pneumothorax \ Pneumothorax treated with Chest Tube	
			Pneumothorax \ Pneumothorax treated with Needle Paracentesis	
			Pneumothorax \ Pneumothorax treated with 100% Oxygen	
			Hypoxic Ischemic Encephalopathy (HIE) \ Stage I	
			Hypoxic Ischemic Encephalopathy (HIE) \ Stage II	
Other				
Hypoxic Ischemic Encephalopathy (HIE) \ Stage III				
Unknown				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Health Conditions	D0152	Indicate type(s) of neonatal health problems diagnosed during NICU/SCN stay	Hyoxic Ischemic Encephalopathy (HIE) \ Stage Unknown	
			Seizures \ Suspected seizures not treated	
			Seizures \ Suspected seizures treated pharmacologically	
			Seizures \ Suspected seizures, treatment unknown	
			Seizures \ Confirmed seizures not treated	
			Seizures \ Confirmed seizures treated pharmacologically	
			Seizures \ Confirmed seizures, treatment unknown	
			Respiratory \ Apnea	
			Respiratory \ Apnea of Prematurity	
			Respiratory \ Aspiration of amniotic fluid and mucus	
			Respiratory \ Aspiration of meconium (Meconium Aspiration Syndrome=MAS)	
			Respiratory \ Aspiration of milk and regurgitated food	
			Respiratory \ Bronchopulmonary Disease - Mild	
			Respiratory \ Bronchopulmonary Disease - Moderate/Severe	
			Respiratory \ Pneumomediastinum	
			Respiratory \ Pneumonia	
			Respiratory \ Pneumopericardium	
			Respiratory \ Pulmonary edema	
			Respiratory \ Pulmonary haemorrhage	
			Respiratory \ Pulmonary Interstitial Emphysema (PIE)	
Respiratory \ Respiratory distress syndrome				
Respiratory \ Respiratory distress, unspecified (not RDS)				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Health Conditions	D0152	Indicate type(s) of neonatal health problems diagnosed during NICU/SCN stay	Cardiovascular Conditions \ Anemia of prematurity	
			Cardiovascular Conditions \ Arrhythmia	
			Cardiovascular Conditions \ Cardiomyopathy	
			Cardiovascular Conditions \ Coagulopathy but not DIC	
			Cardiovascular Conditions \ Coagulopathy due to Disseminated intravascular coagulation	
			Cardiovascular Conditions \ Fetal blood loss from cut end of co-twin's cord	
			Cardiovascular Conditions \ Fetal blood loss, other	
			Cardiovascular Conditions \ Hemorrhage into co-twin	
			Cardiovascular Conditions \ Hemorrhage into maternal circulation	
			Cardiovascular Conditions \ Hemorrhagic disease due to cause other than Vitamin K Deficiency	
			Cardiovascular Conditions \ Hemorrhagic disease due to Vitamin K Deficiency	
			Cardiovascular Conditions \ Hypertension (BP)	
			Cardiovascular Conditions \ Hypotension (BP)	
			Cardiovascular Conditions \ Persistent pulmonary hypertension (PPHN)	
			Cardiovascular Conditions \ Portal vein thrombosis	
Cardiovascular Conditions \ Thrombocytopenia				
Gastrointestinal Conditions \ Acquired Stricture post NEC				
Gastrointestinal Conditions \ Gastroesophageal reflux disease				
Gastrointestinal Conditions \ Intestinal obstruction				
Gastrointestinal Conditions \ Intestinal perforation-Spontaneous				
Gastrointestinal Conditions \ Meconium ileus				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Health Conditions	D0152	Indicate type(s) of neonatal health problems diagnosed during NICU/SCN stay	Gastrointestinal Conditions \ NEC-suspected without pneumatosis	
			Gastrointestinal Conditions \ NEC Stage II-confirmed with pneumatosis	
			Gastrointestinal Conditions \ NEC Stage III-confirmed with pneumatosis & perforation	
			Sepsis \ Positive Blood Culture	
			Sepsis \ Suspected Sepsis (culture negative)	
			Sepsis \ Culture positive lower respiratory tract infection	
			Sepsis \ Culture positive upper respiratory tract infection	
			Sepsis \ Culture positive skin/soft tissue infection	
			Sepsis \ Culture positive urinary infections	
			Sepsis \ Congenital CMV infection	
			Sepsis \ Congenital herpes viral (herpes simplex) infection	
			Sepsis \ Congenital rubella syndrome	
			Sepsis \ Congenital toxoplasmosis	
			Sepsis \ Positive CSF culture (meningitis)	
			Other Health Conditions \ Dehydration	
			Other Health Conditions \ Fever	
			Other Health Conditions \ Hemolytic disease due to ABO incompatibility	
Other Health Conditions \ Hemolytic disease due to Rh incompatibility				
Other Health Conditions \ Hemolytic diseases of fetus and newborn, other				
Other Health Conditions \ Hydrocele				
Other Health Conditions \ Hydrops fetalis due to isoimmunization				
Other Health Conditions \ Hydrops fetalis due to other and unspecified haemolytic disease				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Health Conditions	D0152	Indicate type(s) of neonatal health problems diagnosed during NICU/SCN stay	Other Health Conditions \ Hyperglycemia (Gluc)	
			Other Health Conditions \ Hyperkalemia (K)	
			Other Health Conditions \ Hyponatremia (Na)	
			Other Health Conditions \ Hypertonia	
			Other Health Conditions \ Hypokalemia (K)	
			Other Health Conditions \ Hyponatremia (Na)	
			Other Health Conditions \ Hypothermia (Temp)	
			Other Health Conditions \ Hypotonia	
			Other Health Conditions \ Inguinal hernia	
			Other Health Conditions \ Intrauterine Growth Restriction	
			Other Health Conditions \ Neutropenia	
			Other Health Conditions \ Osteopenia of prematurity	
			Other Health Conditions \ Renal failure	
			Other Health Conditions \ Transient myocardial ischemia	
			Other Health Conditions \ Umbilical hernia	
Neonatal Pain Management	N0215	Indicate all type(s) of neonatal pain management provided in your NICU/SCN unit for this encounter.	Other Health Conditions \ Vocal cord palsy	
			CNS \ CNS IVH Blood in germinal matrix (grade 1)	
			CNS \ CNS IVH Blood in ventricles (grade 2)	
			CNS \ CNS IVH Ventricular enlargement (grade 3)	
			CNS \ CNS IVH Intraparenchymal lesion (grade 4)	
CNS \ CNS PVL periventricular leukomalacia				
			Respiratory \ Transient tachypnea of newborn	

Neonatal Pain Management N0215 Indicate all type(s) of neonatal pain management provided in your NICU/SCN unit for this encounter. None

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Pain Management	N0215	Indicate all type(s) of neonatal pain management provided in your NICU/SCN unit for this encounter.	Opioid analgesic use \ Fentanyl	
			Opioid analgesic use \ Morphine	
			Oral analgesics including acetaminophen	
			Sedative use \ Benzodiazepines	
			Sedative use \ Chloral Hydrate	
			Sedative use \ Ketamine	
			Sedative use \ Midazolam	
			Sedative use \ Other	
			Sucrose	
			Unknown	
Neonatal Resuscitation - Initial Gas Used	N0213	Initial gas used to resuscitate newborn	Air	
			Supplemental Oxygen	
			100% oxygen	
Neonatal Surgery	FAN0005	Indicate only the type(s) of surgical procedure(s) performed on the neonate in your unit during this NICU/SCN encounter.	None	
			Cardiac surgery	
			ECMO	
			NEC surgery	
			Neurosurgery / Central Nervous System Surgery	
			Other abdominal surgery	
			Other chest surgery	
Other surgery				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Surgery	FAN0005	Indicate only the type(s) of surgical procedure(s) performed on the neonate in your unit during this NICU/SCN encounter.	PDA ligation	
			ROP treatment	
			Unknown	
Neonatal Therapies/Interventions	N0042	Indicate only the neonatal therapies and/or interventions that occurred for the NICU/SCN encounter at your organization. Please do not capture any interventions and/or therapies completed by the Transport teams or any other NICU/SCN.	None	
			Exchange transfusion	
			Blood Products in Hospital \ Albumin	
			Blood Products in Hospital \ Cryoprecipitate	
			Intubation	
			Phototherapy	
			Blood Products in Hospital \ Fresh Frozen Plasma	
			Therapeutic Hypothermia	
			Blood Products in Hospital \ Immunglobulin	
			Blood Products in Hospital \ Other Blood products	
			Blood Products in Hospital \ Packed Red Blood Cells	
			Blood Products in Hospital \ Platelets	
			Blood Products in Hospital \ Whole Blood	
Intravascular Devices in Hospital \ PAL				
Intravascular Devices in Hospital \ PICC Line				
Intravascular Devices in Hospital \ PIV				
Intravascular Devices in Hospital \ Surgical CVL				
Intravascular Devices in Hospital \ UAC				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Therapies/Interventions	N0042	Indicate only the neonatal therapies and/or interventions that occurred for the NICU/SCN encounter at your organization. Please do not capture any interventions and/or therapies completed by the Transport teams or any other NICU/SCN.	Intravascular Devices in Hospital \ UVC	
			Pharmacologic Support in Hospital \ Methylxanthines	
			Pharmacologic Support in Hospital \ Antibiotics for GBS	
			Pharmacologic Support in Hospital \ Antibiotics-other	
			Pharmacologic Support in Hospital \ Surfactant	
			Pharmacologic Support in Hospital \ Corticosteroids	
			Pharmacologic Support in Hospital \ Inotropes	
			Pharmacologic Support in Hospital \ Paralytic Agents	
			Pharmacologic Support in Hospital \ Anticonvulsants	
			Other	
			Unknown	
			Pharmacologic Support in Hospital \ Morphine for NAS	
Neonatal Transfer Hospital From	D0116	Indicate name of hospital where neonate was transferred from following birth		
Neonatal Transfer Hospital To	FAN0029	Indicate name of hospital where neonate was transferred to following birth		
Neonatal Transferred from	N0067	To track neonatal transfers and discharges	Labour and Birth Unit, same hospital	
			NICU/SCN, same Hospital	
			Home	
			Birth Centre	
			Admitted from Emergency Department	
			Clinic, same hospital	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neonatal Transferred from	N0067	To track neonatal transfers and discharges	Operating room, same hospital	
			Paediatric unit, same hospital	
			PICU/PCCU, same hospital	
			Non-medical facility (e.g., mall, taxi, ambulance)	
			Unknown	
Neuroimaging Screening Performed	N0226	Indicates whether neuroimaging screening was performed		
Neuroimaging Screening Results Left	N0227	Neuroimaging Screening Results Left	No abnormalities found	
			Blood in Germinal Matrix	
			Blood in Ventricles	
			Ventricular Enlargement Mild	
			Ventricular Enlargement Moderate	
			Ventricular Enlargement Severe	
			Intraparenchymal lesion	
			Periventricular Leucomalacia	
			Infarct	
			Cerebellum Hemorrhage	
			Other Brain Lesions	
Unknown				
Neuroimaging Screening Results Right	N0228	Neuroimaging Screening Results Right	No abnormalities found	
			Blood in Germinal Matrix	
			Blood in Ventricles	
			Ventricular Enlargement Mild	
			Ventricular Enlargement Moderate	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Neuroimaging Screening Results Right	N0228	Neuroimaging Screening Results Right	Ventricular Enlargement Severe	
			Intraparenchymal lesion	
			Periventricular Leucomalacia	
			Infarct	
			Cerebellum Hemorrhage	
			Other Brain Lesions	
		Unknown		
Newborn Congenital Anomalies Confirmed	D0025	Identify all confirmed/diagnosed congenital anomalies; include treated and untreated.	None	No anomalies are suspected or confirmed.
			Head-Cranium & Brain \ Absent cerebellar vermis	
			Head-Cranium & Brain \ Absent cerebellum	
			Head-Cranium & Brain \ Acrania	
			Head-Cranium & Brain \ Agenesis of corpus callosum (ACC)	
			Head-Cranium & Brain \ Anencephaly	
			Head-Cranium & Brain \ Aqueductal stenosis	
			Head-Cranium & Brain \ Arachnoid cyst(s)	
			Head-Cranium & Brain \ Arhinencephaly	
			Head-Cranium & Brain \ Arnold Chiari malformation	
			Head-Cranium & Brain \ Atresia of foramina of Magendie & Luschka	
			Head-Cranium & Brain \ Banana cerebellum	
			Head-Cranium & Brain \ Brachycephaly	
			Head-Cranium & Brain \ Brain tumor	
			Head-Cranium & Brain \ Calcification - intracranial	
Head-Cranium & Brain \ Cavum Septi Pellucidum (CSP) absent				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Newborn Congenital Anomalies Confirmed	D0025	Identify all confirmed/diagnosed congenital anomalies; include treated and untreated.	Head-Cranium & Brain \ Cerebellar & posterior fossa haemorrhage	
			Head-Cranium & Brain \ Cerebral AVM (arteriovenous malformation)	
			Head-Cranium & Brain \ Cloverleaf shaped head	
			Head-Cranium & Brain \ Congenital cerebral cysts	
			Head-Cranium & Brain \ Craniorachischisis	
			Head-Cranium & Brain \ Craniosynostosis	
			Head-Cranium & Brain \ Dandy-Walker malformation / variant (DWM)	
			Head-Cranium & Brain \ Dolichocephaly	
			Head-Cranium & Brain \ Encephalocele	
			Head-Cranium & Brain \ Enlarged cisterna magna	
			Head-Cranium & Brain \ Holoprosencephaly	
			Head-Cranium & Brain \ Hydranencephaly	
			Head-Cranium & Brain \ Hydrocephalus	
			Head-Cranium & Brain \ Iniencephaly	
			Head-Cranium & Brain \ Intracerebral haemorrhage	
			Head-Cranium & Brain \ Intraventricular haemorrhage (IVH)	
			Head-Cranium & Brain \ Lissencephaly	
			Head-Cranium & Brain \ Macrocephaly	
			Head-Cranium & Brain \ Megalencephaly	
			Head-Cranium & Brain \ Microcephaly	
Head-Cranium & Brain \ Plagiocephaly				
Head-Cranium & Brain \ Porencephalic cyst(s)				
Head-Cranium & Brain \ Posterior fossa cyst				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Newborn Congenital Anomalies Confirmed	D0025	Identify all confirmed/diagnosed congenital anomalies; include treated and untreated.	Head-Cranium & Brain \ Prominent forehead	
			Head-Cranium & Brain \ Prominent occiput	
			Head-Cranium & Brain \ Seizures	
			Head-Cranium & Brain \ Septo-optic dysplasia	
			Head-Cranium & Brain \ Small cerebellum	
			Head-Cranium & Brain \ Subarachnoid haemorrhage	
			Head-Cranium & Brain \ Vein of Galen aneurysm	
			Head-Cranium & Brain \ Ventriculomegaly - mild (10-15 mm)	
			Head-Cranium & Brain \ Ventriculomegaly - severe (>15 mm)	
			Head-Cranium & Brain \ Other - malformations of the head & Brain	
			Face \ EARS-Ears - absent (anotia)	
			Face \ EARS-Ears - low set	
			Face \ EARS-Ears - small (microtia)	
			Face \ EYES-Anophthalmia	
			Face \ EYES-Congenital cataract	
			Face \ EYES-Cyclops	
			Face \ EYES-Hypertelorism	
			Face \ EYES-Hypotelorism	
			Face \ EYES-Macrophthalmia	
			Face \ EYES-Microphthalmia	
Face \ EYES-Retinoblastoma				
Face \ MOUTH-Cleft lip				
Face \ MOUTH-Cleft lip & palate				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Newborn Congenital Anomalies Confirmed	D0025	Identify all confirmed/diagnosed congenital anomalies; include treated and untreated.	Face \ MOUTH-Cleft palate	
			Face \ MOUTH-Flat face	
			Face \ MOUTH-Macroglossia	
			Face \ MOUTH-Micrognathia	
			Face \ MOUTH-Retrognathia	
			Face \ NOSE-Absent nose	
			Face \ NOSE-Choanal atresia	
			Face \ NOSE-Hypoplastic nose	
			Face \ NOSE-Proboscis	
			Face \ NOSE-Single nostril	
			Face \ Tumour of face	
			Face \ Other - malformations of the face	
			Neck \ Cervical teratoma	
			Neck \ Cystic hygroma	
			Neck \ Neck tumour - other	
			Neck \ Other - malformations of the neck	
			Thorax \ Agenesis of lung	
			Thorax \ Bronchopulmonary sequestration (BPS)	
			Thorax \ Chest wall deformity	
			Thorax \ Congenital cystic adenomatoid malformation of lung (CCAML)	
Thorax \ Congenital high airway obstruction (CHAOS)				
Thorax \ Diaphragmatic hernia - Congenital (CDH)				
Thorax \ Echogenic lung(s)				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Newborn Congenital Anomalies Confirmed	D0025	Identify all confirmed/diagnosed congenital anomalies; include treated and untreated.	Thorax \ Eventration of diaphragm	
			Thorax \ Lung cysts-other	
			Thorax \ Pectus carinatum	
			Thorax \ Pectus excavatum	
			Thorax \ Pleural effusion(s) (hydrothorax)	
			Thorax \ Pulmonary hypoplasia	
			Thorax \ Other - congenital malformations of lung	
			Thorax \ Other congenital malformations of diaphragm	
			Cardiovascular \ Aorta - pulmonary window	
			Cardiovascular \ Aortic arch - double	
			Cardiovascular \ Aortic arch - hypoplastic	
			Cardiovascular \ Aortic arch - interrupted	
			Cardiovascular \ Aortic atresia	
			Cardiovascular \ Aortic valve insufficiency	
			Cardiovascular \ Aortic valve stenosis	
			Cardiovascular \ Arrhythmia	
			Cardiovascular \ Atrial fibrillation	
Cardiovascular \ Atrial septal defect (ASD)				
Cardiovascular \ Atrioventricular septal defect (AVSD) (endocardial cushion defect)				
Cardiovascular \ Bilateral SVC (superior venae cava)				
Cardiovascular \ Bradycardia (bradyarrhythmia)				
Cardiovascular \ Cardiac dysfunction				
Cardiovascular \ Cardiac tumour / mass				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Newborn Congenital Anomalies Confirmed	D0025	Identify all confirmed/diagnosed congenital anomalies; include treated and untreated.	Cardiovascular \ Cardiomegaly	
			Cardiovascular \ Cardiomyopathy - dilated	
			Cardiovascular \ Cardiomyopathy - fetus of diabetic mother	
			Cardiovascular \ Cardiomyopathy - hypertrophic (HOCM)	
			Cardiovascular \ Coarctation of aorta	
			Cardiovascular \ Common atrium	
			Cardiovascular \ Complete Heart Block	
			Cardiovascular \ Incomplete Congenital heart block (CHB)	
			Cardiovascular \ Congenital heart disease	
			Cardiovascular \ Coronary artery fistula	
			Cardiovascular \ Dextrocardia	
			Cardiovascular \ Dilated ascending aorta	
			Cardiovascular \ Diverticulum - LV	
			Cardiovascular \ Diverticulum - RV	
			Cardiovascular \ Double inlet ventricle (DIV)	
			Cardiovascular \ Double outlet ventricle (DOV)	
			Cardiovascular \ Ductus arteriosus - premature closure	
Cardiovascular \ Ductus arteriosus aneurysm				
Cardiovascular \ Ductus arteriosus - Patent (PDA)				
Cardiovascular \ Ductus venosus - agenesis				
Cardiovascular \ Ebstein anomaly				
Cardiovascular \ Ectopia cordis				
Cardiovascular \ Endocardial fibroelastosis (EFE)				

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Newborn Congenital Anomalies Confirmed	D0025	Identify all confirmed/diagnosed congenital anomalies; include treated and untreated.	Cardiovascular \ Fibroma - cardiac	
			Cardiovascular \ Hypoplastic left heart syndrome (HLHS)	
			Cardiovascular \ Hypoplastic right heart syndrome (HRHS)	
			Cardiovascular \ Interrupted IVC (superior vena cava)	
			Cardiovascular \ Left atrial isomerism (heterotaxy)	
			Cardiovascular \ Mitral atresia	
			Cardiovascular \ Mitral regurgitation	
			Cardiovascular \ Mitral stenosis

Newborn Congenital Anomalies Suspected	D0024	Identify all suspected congenital anomalies. If a suspected congenital anomaly is later confirmed as not present, it should remain as suspected. Then None or any other confirmed anomalies should be entered in Congenital Anomalies Confirmed.	Syndromes \ Xeroderma Pigmentosum	
			Syndromes \ Zellweger (cerebro-hepato-renal) syndrome	
			Unknown	More information is needed and/or there is no documentation to indicate whether or not any congenital anomalies are suspected or confirmed.
Newborn Drug Screen	N0027	Indicate whether newborn drug screening done and if so, select type	None	
			Blood	
			Hair	
			Meconium	
			Urine	
			Unknown	
Newborn Drug Screen Results	N0028	Indicate result of newborn drug screening	Negative	
			Positive	
			Pending	
			Inconclusive	
			Unknown	
Newborn Hearing Screen Result	N0026	The result of the Auditory Brainstem Response (ABR) or Distortion Product Otoacoustic Emission (DPOAE) newborn hearing screen test done during the hospital stay	Pass	
			Referral	
			Inconclusive/no result	
			Not done	
			Unknown	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Newborn Resuscitation (first 30 minutes of life only)	N0023	Indicate all methods used for neonatal resuscitation in your unit for this encounter.	None	
			FF02	Free flow oxygen
			CPAP + Air	Continuous positive airway pressure plus room air
			CPAP + O2	Continuous positive airway pressure plus oxygen
			CPAP (CNN only)	
			PPV + Air	Positive pressure ventilation plus room air
			PPV + O2	Positive pressure ventilaition plus oxygen
			PPV (CNN only)	
			Laryngeal mask airway (LMA)	
			Intubation for tracheal suction	
			Intubation for PPV	
			Chest compression	
			Epinephrine	
			Narcan/naloxone	
			Volume Expander	
Unknown				
Newborn screening offered	D0076	Indicate whether newborn screening (NSO) was done or not done as an inpatient in your unit. Newborn screening should be done at least 24 hours after birth.	Not Done	Select if Newborn Screening was not done in your unit for this encounter.
			Declined	
			Newborn Transferred Out	
			Obtained	
			Unknown	
NICU Admit Date	D0137	Indicate day/month/year when neonate admitted to NICU/SCN		

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
NICU Admit Time	D0138	Indicate time (24 hour clock) when neonate admitted to NICU/SCN		
NICU Discharge Date	D0139	Indicate day/month/year when neonate discharged from NICU/SCN		
NICU Discharge Time	D0140	Indicate time (24 hour clock) when neonate discharged from NICU/SCN		
NICU/SCN Type	N0209	Indicates whether it is NICU or SCN	NICU (Level III)	
			SCN (Level II)	
Non- invasive ventilation days	N0046-1	Indicate the total number of days the neonate received Non Invasive Ventilation, (e.g. NCPAP, SiPAP) in your NICU or SCN for this encounter only, with or without oxygen. When the infant receives full day(s) of ventilation support enter the whole number(s). If ventilation support is less than 24 hours, the percentage of the day needs to be calculated by dividing the number of hours by 24. Eight hours = $8/24 = .33$. This value can not be greater than LOS.		
Nutritional Support in Hospital	N0219	Indicate only the type(s) of nutritional support provided in your unit during this NICU/SCN encounter.	None	
			Breast Milk	
			Donor Milk	
			Formula	
			Human Milk Fortifier	
			NPO	
			Other Additives	
			Study Milk	
			TPN	
			Unknown	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Oxygen Therapy Days	N0048	Indicate the total number of days the neonate received oxygen therapy in your NICU or SCN for this encounter only. When the infant receives full day(s) of oxygen enter the whole number(s). If oxygen therapy is less than 24 hours, the percentage of the day needs to be calculated by dividing the number of hours by 24. Eight hours = 8/24 = .33. This value can not be greater than LOS.		
Pain Relief Measures During Newborn Screening or Serum Bilirubin	N0203	Pain Relief Measures During Newborn Screening or Serum Bilirubin. Select all that apply.	Breastfeeding	
			Skin to Skin	
			Sucrose	
			Other	
			None	
			Unknown	
Percent weight loss/gain - Infant	N0122	Calculation of newborn percentage of weight loss/gain at the time of discharge		
PO2 (mmHg)	D0096	Neonates PO2 value at the 12 hours after initiation of NICU/SCN Care - to calculate SNAPII Score		
Postnatal PRBC Transfusion Date	D0075	Date the infant had a packed red blood cell transfusion as recorded on NSO requisition		
Postnatal PRBC Transfusion Time	D0075T	The time that the postnatal PRBC transfusion was performed. If there were multiple transfusions performed, enter the time of the most recent.		
Reason for admission to NICU/SCN	N0140	Indicate the primary reason for an NICU admission	Acute Care	
			Border	
			Hypoglycemia	
			Observation	
			Other Neonatal Health Problem	
			Palliative Care	
			Prematurity	

Encounter: NICU/SCN

Data Element Name	BORN ID	Data Element Definition	Pick List Value	Pick List Definition
Reason for admission to NICU/SCN	N0140	Indicate the primary reason for an NICU admission	Unknown	
Reason for Breast Milk substitute (on day of discharge)	N0230	Indicates the reason why newborn received any breast milk substitution on the day of discharge from hospital. Breast milk substitute refers to any food used as a partial or total replacement for human (mother's or donor) breast milk.	Infant Medical \ Hypoglycemia	
			Infant Medical \ Inborn Errors of Metabolism	
			Infant Medical \ Significant weight loss in the presence of clinical indications	
			Infant Medical \ Other clinical indications	
			Infant Medical \ Pre-term (<32 weeks)	
			Infant Medical \ Very low birth weight (<1500gms)	
			Maternal Medical \ Active herpes on breast	
			Maternal Medical \ Additional Health Concerns	
			Maternal Medical \ Contraindicated maternal medication	
			Maternal Medical \ HIV infection	
			Maternal Medical \ Severe maternal illness	Mothers who are severely ill and unable to care for their infant.
			Informed Parent Decision to use any Breast Milk Substitute	
			Birth mother not involved in care	For example, adoption, apprehension or surrogacy.
Parental Consent not documented				
	Unknown			
Reason for Breast Milk Substitute in Hospital	N0220	Indicates the reason why newborn received any breast milk substitution while in hospital. NOT at discharge from hospital. Breast milk substitute refers to any food used as a partial or total replacement for human (mother's or donor) breast milk.	Infant Medical \ Hypoglycemia	
			Infant Medical \ Inborn Errors of Metabolism	
			Infant Medical \ Significant weight loss in the presence of clinical indications
