| Primary Cycle ID | ART0082 | CARTR+ | Unique code used by clinic to track a full cycle from oocyte collection to use of all embryos generated from that oocyte collection, i.e. fresh transfer and FETs etc... For frozen embryos or frozen oocytes received from another clinic, the receiving clinic assigns a number to identify that cohort of embryos or oocytes and uses that number to track all future uses of those embryos or oocytes, i.e. could include multiple FETs (frozen embryos) or an IVF cycle with subsequent FETS (frozen oocytes) | | |
| Primary Indication for Cesarean Section | M0510 | Birth Mother | Indicate the primary medical or non-medical reason for cesarean section | Fetal \ Anomaly | |
